

## **Elected officers report: Adam Flint**

Hi council hope all is well with everyone, since the last council there have been many developments in your union, the weather has turned crap and the union is riddled with controversy so I broke my report into three sections to show what I been doing as YOUR union development officer

### **Team Stuff**

since the last council we:

- Drinks for designated drivers-new scheme
- RaG- helped the RaG committee prepare for their 96 hour licence & events
- Had our VC meetings preparing for VCSU
- Helped Planned referenda
- Go Ape team bonding day - I have very bad vertigo, the things I do for you girls!!!
- Helped Nica with her university challenge selection- there are some dam smart students here!
- Been helping Dawn with our stance on the Park and Ride situation which is to be the topic of the referenda
- Helped dawn with her student rep induction evening (she was amazing!)
- We also had two birthdays since the last council so happy birthday Dawn and Laura!

### **My Stuff**

Since the last council I:

- Averaged your preferences and selected the Majestic 12
- Had three Majestic 12 meetings m12 report to be handed out during council
- Planned the first Commercial services committee which the date will be announced during council
- Had two election committees with the build up for the by elections- it's going to be great I love the marketing promotion being done for it as I hope you guys will too!
- (with Laura) Sat on the diversity engagement forum with Hertfordshire police and for the first time the student voice of Hertfordshire was there!
- Went to this year's first Islamic reference group meeting- it was great to see and meet the heads of the student Islamic society and see UHSU & UH from a different perspective!
- Took part in Eco reps training, it's all good for Sound impact
- Been collecting evidence for the submittal of sound impact awards where nothing less than a gold will do for me (LOUGHBOROUGH, YOUR GOING DOWN!!!) (submission date is 18<sup>th</sup> December if anyone is interested)
- Forum general ops meeting- the ATM situation is being dealt with
- Had a meeting with the Fair Trade people, they love us
- Open days (sat on UHSU's stall, boring!)
- Met my new VC since Ava is leaving

- Had academic board
- Been collecting student acts for a performance night (like Jam jar but better!)
- Been a trainer for both TRAKS & student reps sessions

**Stuff between now and next Council:**

- Hopefully as a team we addressed the park and ride situation
- Again as a team addressed the ATM issue
- I would have had 3 more m12 meetings
- Would have had the first and hopefully second commercial services meetings
- By elections would have happened, I will be stepping down from the elections committee for obvious reasons (good luck to whoever takes it up for the big one!)
- Hopefully I would have found a ice rink

No doubt there will be loads of shenanigans that will happen between now and next council, but it's exciting times with the first xmas at the forum. Congrats to Yasmin for organizing and implementing the 96 hour licence (Jamie would be proud!). Special mention to the Ele house for their children in need night, and all UHSU staff for being freaking amazing during a difficult couple of months.
