

Student Council Report - Weds 2<sup>nd</sup> December 2009  
Laura Yeoman

- RaG - 96 Hr license was last weekend! Yasmin Bastow has been making a huge success and the sabbatical team have supported her and the rest of her team to get RaG bigger and better than last year's success
- Colours Awards 2010 - I am very proud that this year's colours award video (a massive part of the presentation) is being produce by the media society.
- Varsity Day - I would like this to extend through the entire university get AU clubs and other students and societies involved in sports such as dodge ball. This will be part of a new project called student campus sport.
- Promotion across the university - AU sharing resources with the SU marketing department.
- I am STILL working with the AU and SU ents team to create a Wednesday culture! Be proud of your university colours!
- Looking to encourage student working groups. AU student have stressed that they would like to be given the opportunity to plan and event. The idea of an AU street team has been mentioned - I see no reason for this not to extend across to societies - volunteers recognition evening?
- Society day, one day of road shows - I would like to push this for Jan.
- M12 - Helping Adam with his new project! It's going really well! Student feedback is very valuable!
